

JEDIDIAH ROSEMAN

jedrose@umich.edu • 404.401.1077 • Ann Arbor, MI

EDUCATION

University of Michigan

Bachelor of Science in Electrical Engineering

- Major GPA: 3.91

Relevant Coursework: Programming & Data Structures, EE System Design, Intro Circuits, Semiconductor Devices, Signals & Systems, Web Development, Electromagnetics, Multivariable Calculus, Differential Equations

Ann Arbor, Michigan

Expected May 2028

WORK EXPERIENCE

First Financial Bank USA

Product Manager, Contracted Software Project

- Directed a 7-member cross-functional team through a focused 13-week sprint to deliver a full-stack fintech MVP targeting \$50M in new retail IRA deposits, successfully clearing all 3 executive gate reviews on schedule.
- Architected an end-to-end product build spanning frontend engineering, backend systems, quantitative modeling, and a full compliance framework, coordinating all workstreams and deliverables across 3 structured development phases.
- Producing a production-ready prototype backed by complete technical documentation and handoff materials, designed for seamless integration by an external software firm directly into live core banking infrastructure.

Atlanta, Georgia

Summer 2026

Service Provider Capital

Investment Analyst Intern

- Executed quarterly valuations for two venture capital funds totaling \$200M+ AUM by synthesizing financial statements and market comparables to support data-driven investment committee decisions each quarter.
- Maintained comprehensive financial records for 100+ portfolio firms through consistent C-suite outreach and structured report analysis, preserving full data integrity across the fund's tracking infrastructure over time.
- Leveraged PitchBook intelligence to systematically benchmark competitor funding rounds and valuation models, delivering actionable competitive landscape insights that directly shaped ongoing portfolio construction and strategy.

Atlanta, Georgia

Summer 2025

PROJECT EXPERIENCE

Michigan Defense Technology (MDT)

Co-President and Founder

- Co-founded and scaled U-M's first defense tech organization, managing 100+ applicants with an 18% acceptance rate while defining the full strategic roadmap for advanced technical research, operations, and recruitment.
- Spearheaded high-value external partnerships securing exclusive private events with Anduril and Antares, while hosting General H.R. McMaster and Blackstone's Senior Managing Director of Global Tactical Operations on campus.
- Coordinated outreach and project scope for 3 industry-sponsored projects: AG3-sponsored drone swarm system, autonomous underwater vehicle (AUV) research platform, and Northwind-sponsored wind tunnel data platform.

Ann Arbor, Michigan

2025-Present

Ascend Consulting Group

VP of Consulting and Founding Member

- Captured 10+ paid client engagements including YC-backed startups, Pro Football Focus, and Capitol AI, generating consistent revenue and establishing the group as a credible campus consulting practice from the ground up.
- Founded and led a dedicated VC scout team, sourcing and pitching Michigan-based startups to venture capital firms and accelerators, bridging the gap between early-stage founders and institutional investment networks.
- Oversaw execution of 12 client projects by facilitating 50+ structured check-ins and delivering project management training to 40+ members, standardizing workflows and ensuring full on-time delivery across all engagements.

Ann Arbor, Michigan

2024-Present

Midtown Electric Vehicle Rally

Co-Founder and Head of Logistics

- Mobilized \$25K in corporate sponsorship funding from Mercedes-Benz and Rivian to establish Atlanta's first collegiate EV club, forging both partnerships through sustained, targeted executive-level outreach from the ground up.
- Engineered the complete wiring system for a brushless DC motor drivetrain, collaborating closely on full electrical and mechanical integration across a 20+ member team to compete at the national collegiate level.

Atlanta, Georgia

2022-2024

SKILLS & ACTIVITIES

Hardware & Lab: Circuit design and assembly, brushless DC motor systems, wiring and drivetrain integration, oscilloscope and multimeter proficiency, EM lab instrumentation, PCB prototyping, MATLAB, Onshape (CAD)

Software: C++, Python, JavaScript, HTML, Excel, PowerPoint, STAR.SDK, Claude Code, Notion, Cursor

Honors: Harvard National Debate Tournament, Quarter Finalist, Ranked Top 100 in the US; MIT Inspirit AI, trained a convolutional neural network to classify pneumonia from chest X-ray images

Hobbies: Music (Vinyls), Backpacking, Basketball, Golfing, Video Production, App Development
